Company Website:	https://www.facebook.com/NWEsyRobots	
Company Description:	New World CAD/CAM Development Ltd. is a turn-key automation system provider. We develop new robotic/automation solutions for various industries such as food and beverage, construction and automotive industry.	
Enquiry / Application:	terry@willsonic.com	
Position Name:	Employment Type:	Required Education Level:
Engineer (Robotic & Motion Control)	Full-time	Bachelor Degree

P2 Mobile Technologies Limited

Company Website:	http://www.p2wireless.com	
Company Description:	<p>P2 is a leading wireless mesh technology company offering flexible and expandable network solutions for bandwidth-demanding applications, industrial and mission-critical infrastructure. P2's patented "Smart Virtual Fiber" technology revolutionizes the way multiple devices are connected. Our flagship MeshRanger series eliminates the constraints of extensive fiber optic cabling to enable an easy and rapid deployment for IP cameras, Sensors and IoT devices. P2's Smart Virtual Fiber network is simple to setup using fiber-like Ring or Daisy-Chain topology. This flexible mesh architecture provides high bandwidth, low latency and self-healing connections to meet the most demanding connectivity requirements.</p>

Position Name:	Employment Type:	Required Education Level:
Software Engineer for 5G/IoT ASIC	Full-time	Bachelor Degree
Software Engineer for 5G/IoT ASIC	Part-time	Bachelor Degree
Software Engineer for 5G/IoT ASIC	Internship	Bachelor Degree
Software Engineer for 5G/IoT ASIC	Full-time	Post-graduate Degree
Software Engineer for 5G/IoT ASIC	Full-time	Doctorate Degree or Above
Algorithm Engineer for 5G/IoT ASIC	Full-time	Bachelor Degree
Algorithm Engineer for 5G/IoT ASIC	Part-time	Post-graduate Degree
Algorithm Engineer for 5G/IoT ASIC	Full-time	Doctorate Degree or Above
Algorithm Engineer for 5G/IoT ASIC	Internship	Bachelor Degree
Digital Design Engineer for 5G/IoT ASIC	Full-time	Bachelor Degree
Digital Design Engineer for 5G/IoT ASIC	Full-time	Post-graduate Degree
Digital Design Engineer for 5G/IoT ASIC	Part-time	Post-graduate Degree
Digital Design Engineer for 5G/IoT ASIC	Internship	Bachelor Degree
Digital Design Engineer for 5G/IoT ASIC	Full-time	Doctorate Degree or Above

Red Bird Technology Limited

Company Website:	http://www.clustarai.com	
Company Description:	Hong Kong Red Bird Technology is a provider of big data and artificial intelligence solutions with a new data center network technology platform and the application of superb scientific research results to the commercial sector. It provides an efficient distributed machine learning system for enterprise AI and is committed to improving efficient computing in AI environments. Its product "Clustar AI" is based on a new generation of high-performance distributed computing architecture, helping AI Developers provide interactive data modeling and machine learning development platforms, and provide enterprises with free information, data upgrades to intelligent AI solutions.

Red Bird Technology Limited		
Position Name:	Employment Type:	Required Education Level:
AI Product Development Engineer	Full-time	Bachelor Degree
C++ Development Engineer	Full-time	Bachelor Degree
Operation and Maintenance Development Engineer	Full-time	Bachelor Degree
Kubernetes(k8s) Engineer	Full-time	Bachelor Degree
RDMA Network Development Engineer	Full-time	Bachelor Degree
Data Center Network R&D Engineer	Full-time	Bachelor Degree

SagaDigits Limited

Company Website:	http://www.sagadigits.com	
Company Description:		
Enquiry / Application:	info@sagadigits.com	
Position Name:	Employment Type:	Required Education Level:
Junior Security Specialist	Full-time	Bachelor Degree
Junior Big Data DevOps Engineer	Full-time	Bachelor Degree

Sanomics Limited

Company Website:	https://www.sanomics.com	
Company Description:	Since the launch of Sanomics, “Patient First” has always been our principle. Putting patients’ needs as our top priority, we strive to revolutionize current cancer treatments by providing safe and efficient liquid-based and tissue-based genomic tests to patients. We aim to provide easy and convenient access to our services and help doctors decide personalized cancer solutions for patients.	
Enquiry / Application:	info@sanomics.com	
Position Name:	Employment Type:	Required Education Level:
Research Officer	Full-time	Bachelor Degree
Medical Laboratory Technologist	Full-time	Bachelor Degree

Sucabot MedTech International Limited

Company Website:	http://www.sucabot.com	
Company Description:	<p>Sucabot MedTech International Limited was established in 2016 and mainly focuses on the research and development of surgical robots. With innovative and user-oriented artificial intelligence medical image analysis and robotic technology, we have developed specialty customized surgical imaging guidance robotic system which can effectively reduce the surgical risk, shortening operation time and improve current successful rate. We apply our technology in neurosurgery, orthopaedics and dental, and aim at transforming the minimally invasive surgery to be simple, smart and precise.</p>

Job Vacancies		
Position Name:	Employment Type:	Required Education Level:
Software Engineer	Full-time	Bachelor Degree
Cloud Application Engineer (Frontend/ Backend)	Full-time	Bachelor Degree

Sustainable Energy Limited

Company Website:	http://www.sustaine.com.hk	
Company Description:	Based in Hong Kong, Sustainable Energy Limited is a manufacturer to produce heat pump and air-conditioning products. Our main business is to supply cutting-edge products for reducing energy consumption and eliminating energy wastage. Our experts provide application solutions to customers in reducing consumption on energy-intensive sectors such as airconditioning, dehumidification and hot water systems. With innovative heat pump technology, desiccant dehumidification units, energy recovery ventilator, integrated functions and advanced control, our products provide optimal level of indoor climate and air quality solutions in sustainable buildings.	
Enquiry / Application:	venus.lun@sustaine.com.hk	
Sustainable Energy Limited		
Position Name:	Employment Type:	Required Education Level:
Post-doctoral Engineer	Full-time	Doctorate Degree or Above
R&D Engineer	Full-time	Doctorate Degree or Above
Assistant Engineer	Full-time	Bachelor Degree

Tech Hill Limited

Company Website:	http://www.techhillltd.com	
Company Description:	TECH HILL LIMITED is a startup design company providing a combination of unique product concept, application technologies and solutions of next generation human compute-intensive, robotics, AI learning, and video & image processing. We have an excellent R&D team in their specialized segments consist of big data analysis, huge computational technology, ultra HD video & image technology, Embedded AI, complexity SoC & FPGA design, embedded software & hardware and prototype design. They have abundant R&D and design experience in research institute and private sectors. We focus on providing a unique, reliable, presentable & innovative state-of-the-art machine, infrastructure and next generation solution.	
Enquiry / Application:	wpmok@techhillltd.com	
Position Name:	Employment Type:	Required Education Level:
Engineer, Computer Vision & 3D Reconstruction	Internship	Bachelor Degree
Engineer , Polymers & Silicon based Materials	Internship	Bachelor Degree
Engineer, FPGA/ASIC & Circuit Design	Internship	Bachelor Degree
Marketing & Business Development Executive	Full-time	Bachelor Degree
Software Engineer, AI & Robotics Programming	Internship	Bachelor Degree

Union Semiconductor (HK) Limited

Company Website:	http://www.union-ic.com	
Company Description:	Founded in 2001, Union Semiconductor is a fabless integrated circuit design company, engaged in inventing, designing and marketing high performance linear and mixed-signal integrated circuits (ICs) for use in a variety of electronic equipment.	
Enquiry / Application:	zhang.yb@union-ic.com	
Position Name:	Employment Type:	Required Education Level:
DC-DC Products Application Engineer	Full-time	Post-graduate Degree
Analog IC Design Engineer (DC-DC)	Full-time	Post-graduate Degree
Analog IC Design Engineer	Full-time	Bachelor Degree
IC Verification Engineer	Full-time	Bachelor Degree

Vita Green Pharmaceutical (H.K.) Limited

Company Website:	http://vitagreen.com	
Company Description:	Established 25 years ago, Vita Green is already a prominent household name, and is recognized as the most reputable and assuring brand in Hong Kong. We are dedicated to bring health, youth and joy to all. Vita Green specializes in extracting health treasures based on the essence of herbs and traditional Chinese medicine, and manufacture them to the highest western pharmaceutical standards with the help of sophisticated modern technology.
