<u>Be computer savvy at HKU!</u>

The Information Technology Services (ITS) of HKU is pleased to inform the RPg students of the research computing facilities available to them to support their research in two seminars. The details of Seminar 1 are as follows:

Date: September 26, 2017 (Tuesday)
Time: 12:45 – 1:45 pm
Venue: P501, Graduate House

In this introductory session, staff from ITS responsible for research computing support will talk about what HKU provides to create a conducive computing environment for research among RPg students. They will introduce the High Performance Computing (HPC) / High Throughput Computing (HTC) facilities offered by the ITS, highlighting the China and international research computing collaborative consortiums that the ITS has been participating in. They will also discuss with students the use of relevant software in their research.

Following this general introductory session, one other in-depth seminar will be conducted in November, catering for the RPg students working on more technically demanding research projects.

To register for this September session, please click here:
