

Dialogues between Croucher Innovation Awardees & RPg students

The Graduate School is pleased to offer opportunities for informal interactions between RPg students and Croucher Innovation Awardees, which aim at contributing to the development of critical questioning and thinking skills among RPg students in the emerging world of open innovation. Through these exchanges, the Awardees will share their experience and insights in innovative research, which also echoes one of the 3 'I' strategies of HKU – “internationalisation, innovation and interdisciplinarity”.

Here is the second session of the dialogue series:

March 23, 2017 (Thursday), 12:45 pm to 1:45 pm, P501, Graduate House

Dr Hayden Kwok-Hay SO

Recipient of the Croucher Innovation Award 2013

Associate Professor (Teaching), Department of Electrical and Electronic Engineering, HKU

Thinking within the Box

There's a common saying that one has to think outside the box in order to be creative. In this sharing session, Dr So will argue how simply thinking outside the box is not enough to lead to true innovation. He will explain why one must understand what the box is and where its boundaries are, and be versatile to go inside and outside the box as needed. He will also talk about his experience working in the area of reconfigurable computing, sharing how a casual dialogue with his research advisor has eventually turned into more than a decade of exciting research.

Online registration at EMS for RPg students:

https://hkuems1.hku.hk/hkuems/ec_hdetail.aspx?ueid=48459

Sandwiches and drinks will be provided. Don't miss this great opportunity to get inspired!
