

Dialogues with Croucher Innovation Awardees

The Graduate School is pleased to offer opportunities for informal interactions between RPg students and Croucher Innovation Awardees, which aim at contributing to the development of critical questioning and thinking skills among RPg students in the emerging world of open innovation. Through these exchanges, the Awardees will share their experience and insights in innovative research, which also echoes one of the 3 'I' strategies of HKU – “internationalisation, innovation and interdisciplinarity”.

Please find below the details of the coming session:

Dr Shizhong Zhang

Recipient of the Croucher Innovation Award 2015

Associate Professor, Department of Physics, HKU

<https://www.physics.hku.hk/people/academic/3133>

Dr. Zhang works on the physics of ultra cold atomic gases, a frontier of modern atomic physics with substantial overlap with condensed matter physics. He will discuss what he believes to be important in research for a postgraduate student, which includes preparation and selection of research topics, conducting research and dealing with research stress. He will also share with RPg students some of the lessons that he learned as a postgraduate student.

Date and Time:

November 22, 2018, Thursday, 12:45 pm to 1:45 pm

Venue:

Room P501 (*on Level P5, one level below the Wang Gungwu Lecture Hall*), Graduate House

Online registration at EMS for RPg students:

https://hkuems1.hku.hk/hkuems/ec_hdetail.aspx?UEID=60630

Sandwiches and drinks will be provided at the session. Don't miss this great opportunity to get inspired!
